Philip K Dick

# The Second Variety

Ishaan
Shahid

# Summary here.....

```
>cold war totalitarian destruction
>everything goes to post apocalyptic sh$t
>killer robots gain sentience
>player3 has joined the lobby
>race back to base
>plot thickens
>dumb hooman easily manipulated
>a ray of hope
```

paradigms

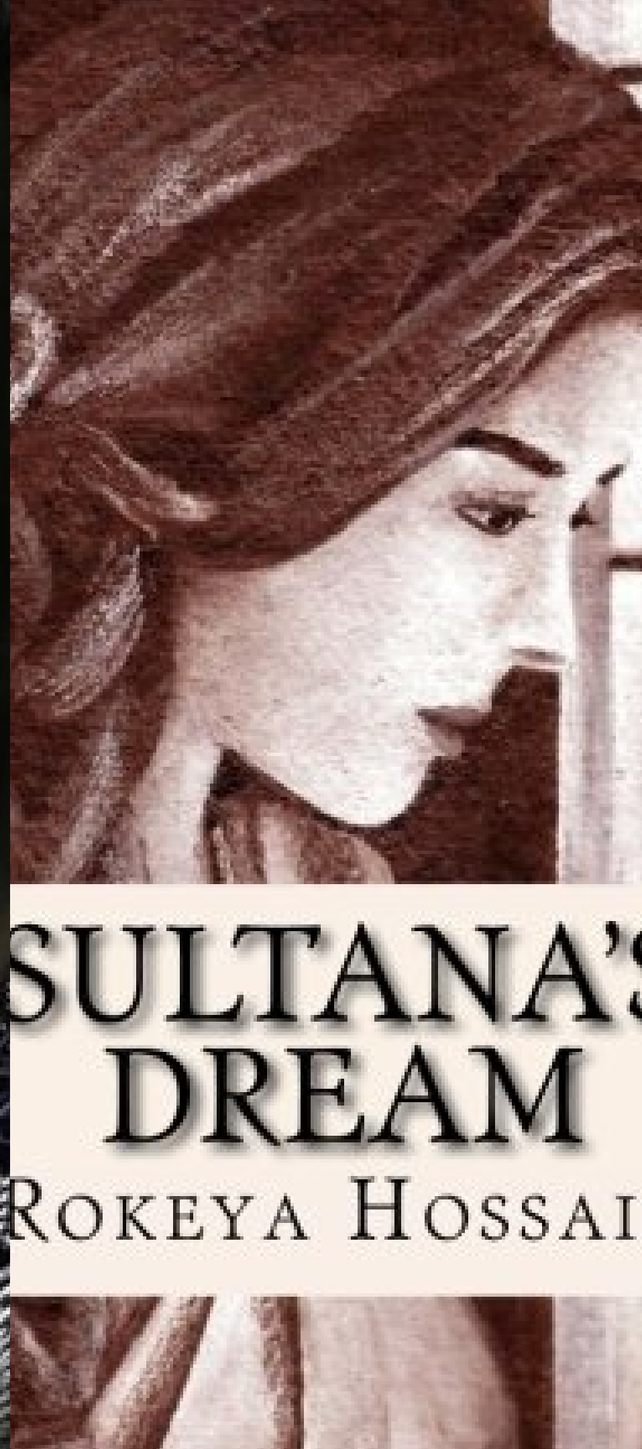
>turing test

>existentialism

>projection

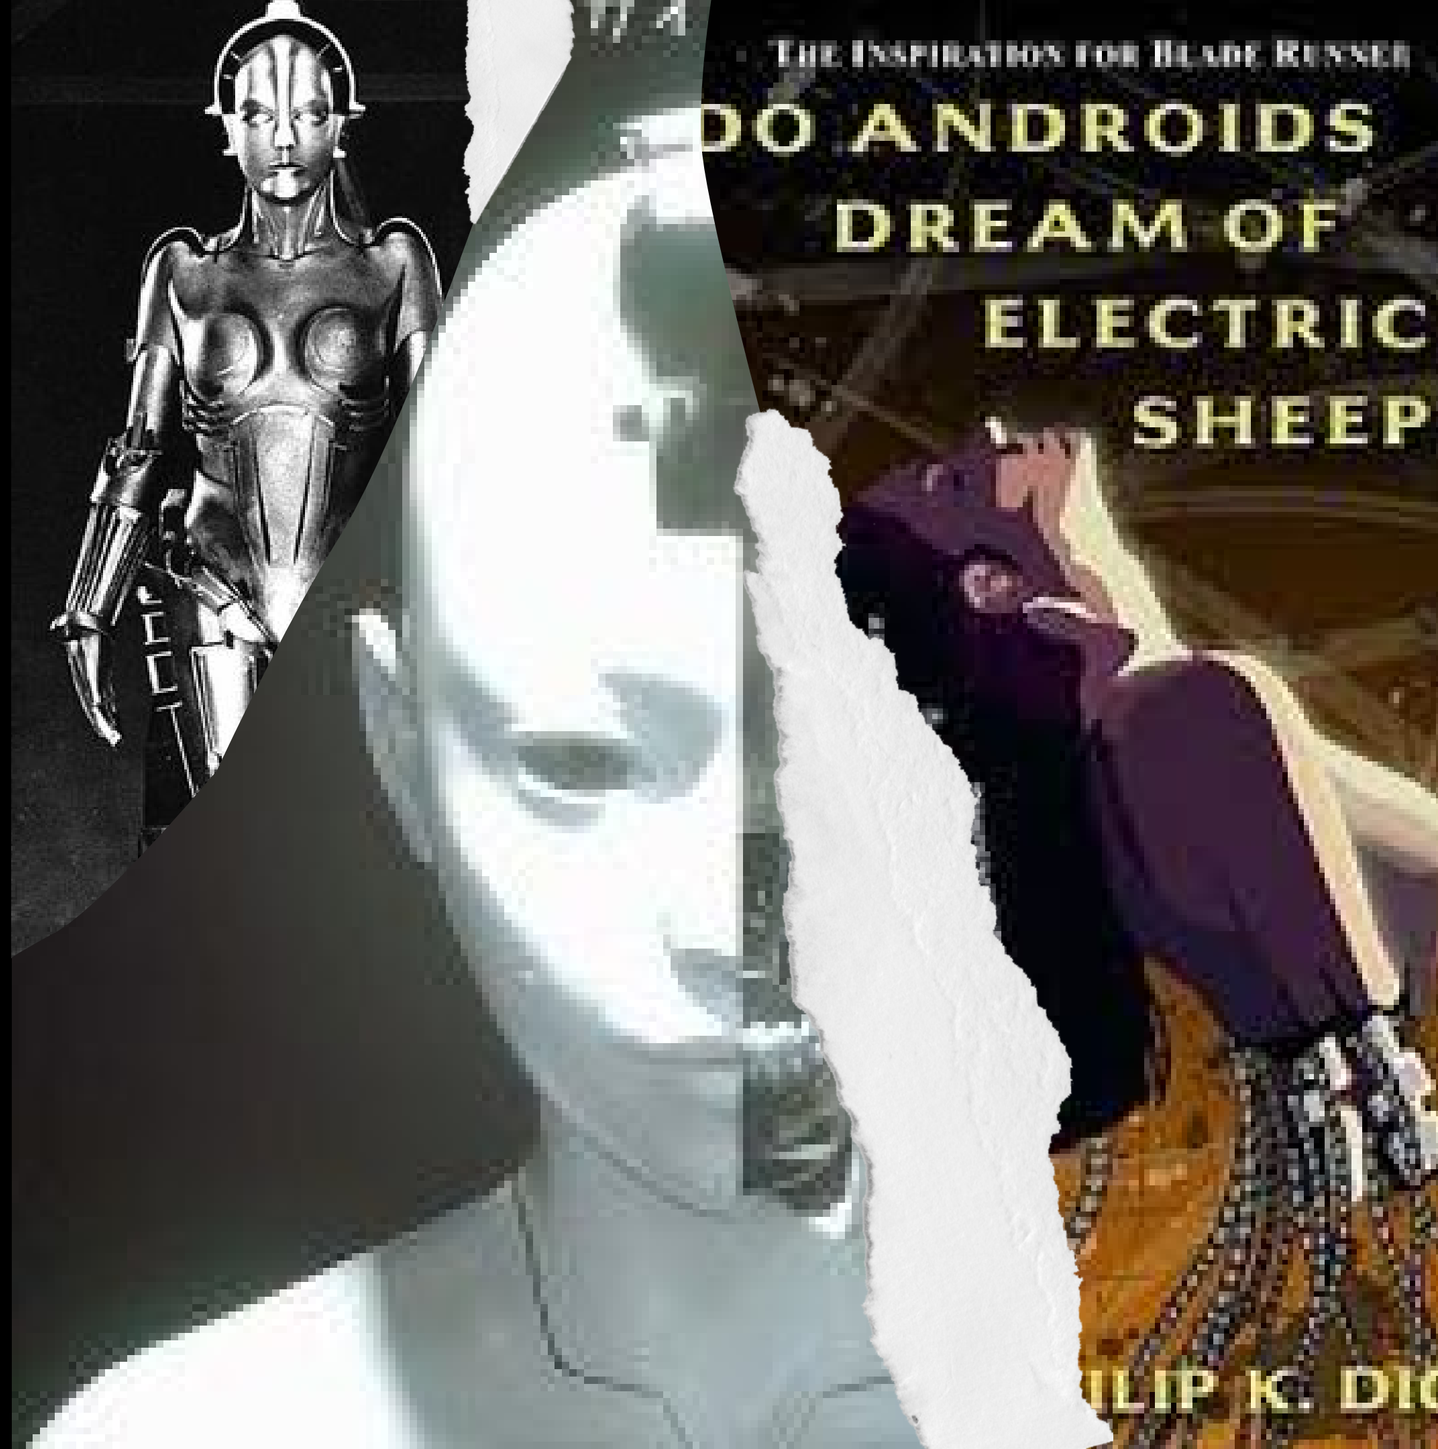
>the end and the means

# ex machina



**Ask!**

Do robots dream of electric sheep??



# Yes or No

Are you conscious? Is your thought free?

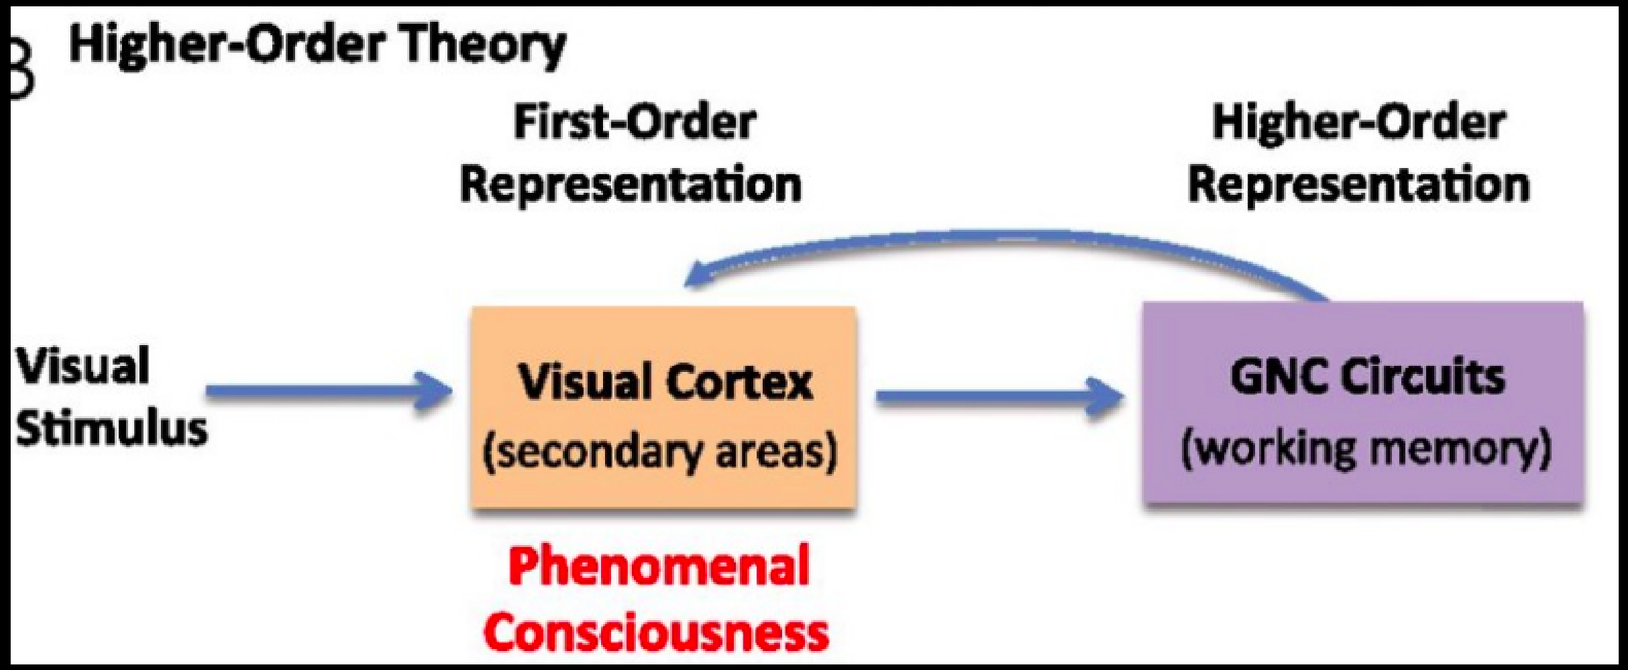
**What is consciousness, sentinence exactly?**

There’s a thing called consciousness. We can point our finger to it subjectively. We all have it, supposedly. Where is it? Is that a question that can be asked?

Is it in the brain??

# True or False

This is a 'red balloon'.



**Does it even matter??**

Yes OR No

<u>If yes, where does it stop mattering?</u>

<u>Where does the line draw???</u>

https://www.youtube.com/watch?v=H6u0VBqNBQ8&feature=youtu.be

# Ask!

Does Cain need an Abel?

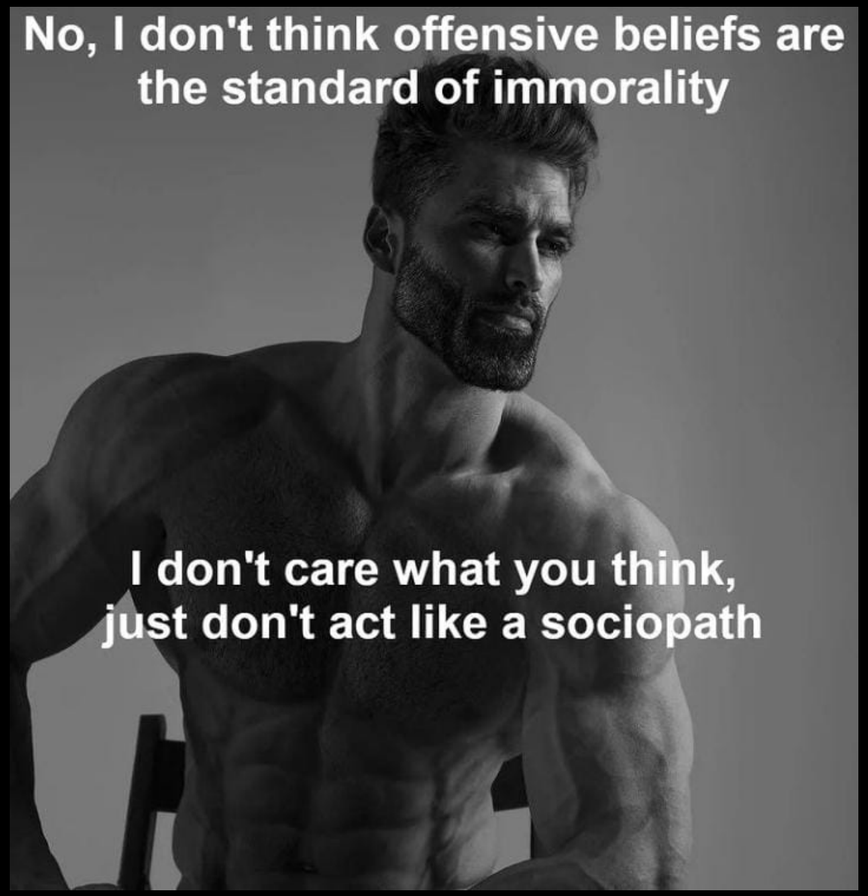
# Ask!

Will robots inherit humans??

~M. L. Minsky

The Future of Intelligence.

Only the bravest will remain

## Collapse OF Ethics


"No popular ethical system yet, be it humanist or religion-based, has shown itself able to face the challenges that already confront us."
